No. 684-TH Versablade Trowel Open Handle

U.S. Patent No. 7,694,380, and U.S. Patent Pending

VERSABLADE®

The latest addition to the Versablade Trowel System is a traditional style open-end trowel handle. Constructed of aluminum and plastic, this sturdy handle gives the feel of a regular fixed handle trowel with the benefit of using many different notched blades with the same handle. The molded textured cushion grip has small ribs for a non-slip comfortable grip. The replaceable plastic receiver base is securely fastened to the aluminum portion of the handle using 4 Phillips head screws. See Catalog 126, page 66 and NPR-15 for a complete list of available notches for the Versablade Trowel System. Blades sold separately.

No. 283 Handi-Kirb™ Shower Curb

U.S. Patent Pending

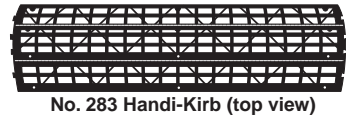

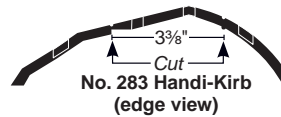

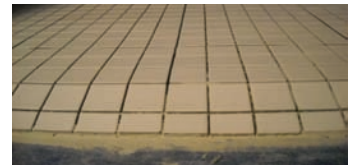

PRICE
\$13²⁰

The Handi-Kirb™ Shower Curb is a stay-in-place plastic form for roll-in, wheelchair accessible shower curbs where recessing the compartment floor is not possible or practical. Handi-Kirb has molded in dovetail connecting lugs to accommodate any size shower opening and can be used with either a liquid or sheet pan liner membrane. This lower profile along with a tiled shower floor, meets the ADA requirements for a shower curb. Handi-Kirb can be used in its complete profile to give an untiled height of 2³/₈". It can also be cut in two places along its length to give a low profile untiled height of 3/4". Handi-Kirb is easily cut with a hacksaw, PVC cutters or angle grinder. Can be used on concrete sub floors using 1¹/₂" Tapcon® screws or wood sub floors using 1" wood screws. (Screws not included.) Supplied with installation instructions. Handi-Kirb is 8" wide x 30" long and 2³/₈" high.

Thin Bed Installation

No. 528-010P Sanding Kit and Sandpaper — Fein MultiMaster and SuperCut — for Wood

This 4¹/₂" round Sanding Pad has a rigid aluminum back with eight dust collection holes and a "hook" face to attach to the "loop" back of the Sandpaper. This Sanding Pad can be used with the No. 528-063 Dust-Free Sanding Kit (MultiMaster) or the No. 628-074 Dust-Free Sanding Kit (SuperCut) for virtually dust-free sanding. The oscillating movement of the MultiMaster and SuperCut Tools does not generate airborne dust and allows the user to work close to edges without any recoil effect. This Sanding Pad and Sandpaper offers double the removal rate compared to top-selling random orbit sanders when used with the MultiMaster. Performance is even greater when used with the SuperCut. The high quality resin bonded Sandpaper is designed for heavy duty performance. Packed 16 sheets per package, Sandpaper is available in a wide range of grits from coarse (40 grit) to fine (240 grit). Also available in an assorted pack containing 4 sheets each of 60, 80, 120 and 180 grits. Each kit includes 1 each Sanding Pad and 2 sheets each of 60, 80 and 180 grits Sandpaper. This Round Dust-Free Sanding Kit is only for use with FMM 250START, FMM250Q and FSC2.0Q (with No. 628-005 Adapter) Series Tools. It is recommended that only Fein Sandpaper be used with this Sanding Pad to avoid possible damage to the "hook" portion of the Sanding Pad.

Item No.	Item Description	Quantity	List Price
528-010P	4-1/2" Round DC Sanding Kit	1 each	\$36.85
528-040P	40 Grit DC Sandpaper (16/pk)	16 each/package	\$15.70
